THE COLUMNS—This is the main building at Chowan College. Built in 1851, the building is now used for administration offices, with girls' dormitories on the second and third floors. It faces on a large and beautiful campus containing many varieties of trees.

PURPOSES

1. Quality and not quantity is the philosophy of Chowan College. Our desire is not to be large but to be excellent.
2. It is the purpose of this institution to meet the demands of the community and section.
3. Furthermore, it is the desire of the college to provide the kind of persons demanded in and by our society with the idea of preserving and enriching our democracy.
4. Chowan College seeks to give to all students who enroll an understanding and appreciation of the ideals of religion fundamental to a positive, Christian philosophy of life.
5. While meeting the needs of those students who are preparing for continuation of college training, we seek to meet the needs of that large group demanding terminal education. Therefore, without minimizing the liberal education, we provide the vocational education demanded.
6. Being a vital part of the training program for religious leaders, we shall maintain and enlarge our program for ministers and religious leaders.
7. Knowing the racial, religious and economic make-up of the United States and the misunderstanding and prejudices therein, we pledge to provide a program which will create good will and reduce tension among these various groups.

April 3, Thursday	Spring Vacation Begins at 11:00 O'clock
April 9, Wednesday	Classes Resume
May 3, Saturday	May Day-Closed Weekend
May 23, Friday	Examinations Begin
May 25, Sunday	Baccalaureate Sermon
May 30, Friday	Graduation Exercises

INTRODUCTION TO CHOWAN COLLEGE

HERITAGE

The Baptists of Northeastern North Carolina and Southeastern Virginia conceived the idea of a college in the 1830's, but the talk of ten years did not materialize until October 11, 1848. For it was on that date that Chowan College was founded. The institution was known as Chowan Baptist Female Institute for the first 63 years; the name was changed to Chowan College in 1911.

The College opened its doors on a lot of the old Murfreesboro Academy, using the Banks School Building and equipment. In 1851 the College moved to "The Columns," now the main building on the campus.

The Civil War did not force the College to close its doors, nor did it close during the Reconstruction. During the nineteenth century Chowan was recognized throughout the South for its high standards in scholarship and culture. Since 1878 Chowan has belonged to the Baptists of North Carolina.

During the twentieth century progress continued in the addition of buildings and the maintenance of continued high standards. In 1925 the College became an accredited school with a standard senior grade rating; in 1931 it became coeducational; in 1937 it became a junior college.

Due to the lack of students the College was forced to close in the spring of 1943. However, the College reopened in the fall of 1949 and has grown steadily since.

Chowan graduates have ranked high among the list of distinguished names in this and other states; and, since its founding, its leaders and teachers have been foremost in their fields.

LOCATION AND ENVIRONMENT

Chowan College is located in Murfreesboro, Hertford County, North Carolina, a town with a population of about 2500, 18 miles from Ahoskie, 58 miles from Norfolk, Virginia, and 34 miles from Roanoke Rapids. U. S. Highways 158, 258, and 13 make the town easily accessible.

In the Northeastern section of North Carolina, Murfreesboro is on the Meherrin River, a navigable stream which empties into the Chowan River. The Chowan River, in turn, flows into the Albemarle Sound at Edenton, 55 miles from Murfreesboro. Murfreesboro is in close proximity to Jamestown, Williamsburg and Virginia Beach, Virginia, and Elizabeth City, Kitty Hawk, Manteo and the Outer Banks in North Carolina.

The climate is exceedingly healthful and favorable to study. Murfreesboro is one of the most cultured and historic communities in North Carolina. The spirit and atmosphere are all that one can ask of a college community.

THE CAMPUS

The main campus and athletic fields contain a tract of 57 acres of land. The College farm, or East campus, is a tract of 54 acres on which is located the Sandy Hollow Stables—stables housing the riding horses used by the students in instruction and recreation.

The campus is approximately 100 feet in elevation and is one mile from the Meherrin River. The beautiful campus immediately in front of "The Columns" is surrounded by a circular drive, and through the center is the cedar lane. The winding walks, monumented with fine shade trees, shrubbery and flowers, with beautiful old pines skirting the circular drive, together with the surrounding hills and valleys, suggestive of the Piedmont area, add greatly to the beauty and attractiveness of one's environment here. At the same time the spacious campus furnishes recreation grounds for both faculty and students.

BUILDINGS

The Columns, or the Administration Building. Erected in 1851, The Columns is a beautiful four-story brick and concrete building. It has a very imposing appearance due to its massive columns and broad veranda. The first floor houses faculty offices. The second floor is occupied by administrative offices and lounges. Women students occupy the third and fourth floors.

The South Building. The first floor of this building, which joins the rear of the Administration Building, has the men's infirmary, faculty offices, and the swimming pool. The pool is used throughout the year for swimming instruction and for recreation. The second floor is occupied by the auditorium. The auditorium has a seating capacity of 800. The third floor is used as a woman's hall.

The East Building. The college cafeteria occupies the first floor. of the East Building, and the library occupies the second floor.

The Science Building. Completed in the spring of 1956, the Science Building is modern in all respects, having spacious laboratories, classrooms, lecture halls and offices. This building was made possible largely through the contribution of \$40,000 by Rufus J. Greene of Emporia, Virginia. Biology, Chemistry, and Physics are taught in this building. The Laboratory Technician or Medical Technology courses are taught here also.

The Stone House. The Department of Fine Arts uses the two-story stone building. Practice rooms are provided for piano and voice students, and space is provided for the teaching of art.

The Student Center. The Student Center has a post office, snack bar, lounge, assembly room, and kitchen.

Love Cottage. This building is the oldest building on the campus, having been built before The Columns. It is used as alumni office.

The Gymnasium. This building, as yet unnamed, was erected by friends of the College to provide badly needed space for athletic events and physical education activities. The building has eight modern classrooms which are being used for liberal arts instruction until such time as a classroom building may be erected.

The Graphic Arts Building. This building houses the Roy Parker School of Printing, a school made possible through the initial efforts of Newspaper Publishers of North Carolina. The School has been approved by the East and West Carolina Press Associations and North Carolina Press Association. This building has complete facilities for instruction in Teletypesetter keyboard operation, Linotype operation, presswork, composition, and photography.

The Agriculture Building. This building is a concrete block structure which has classroom, shop and shed space.

The Business Education Building. Formerly known as the "President's House," the building was renovated to make space for five classrooms and an office.

The President's House. This is a two-story brick house at the entrance to the campus.

The Cottages. To provide much needed space for men students four five-room cottages were built in 1949. The cottages accommodate 40 men students. When sufficient dormitory space has been provided, the cottages will be moved and used, perhaps, for married students.

The Men's Dormitory. This building was erected in 1954. A two-story solite block building of modern design, it accommodates 100 men. The building has an apartment for the counselor and lounge space.

PROPOSED BUILDINGS

In 1955 the College projected its needs for the next ten years. The estimates of these needs were concluded after weeks of study by six different committees from the Trustees, Faculty, Alumni, Business Men, School Men, and Ministers. The following buildings are proposed:

Library Building. The present library is cramped for space. Too, the library has no reading rooms other than the main reading room and little work space for processing books. The proposed library building would have small reading rooms and rooms in which historical material might be preserved.

Music Building. The proposed music building will contain modern and adequate facilities and equipment to meet the needs of an expanding department. More pressure is being placed upon the department to provide church organists, pianists and choir directors. Consequently, the department needs more space.

Business Education Building. The Business Education Department has grown by about 100 per cent in four years. Present quarters are inadequate. The proposed building would be constructed with future needs in mind as well as the acute needs of the present.

Administration Building. This building would accommodate the administrative offices and would contain classrooms for liberal arts instruction. Office space in The Columns has been inadequate. With new administrative office space a greater degree of efficiency in operation would be accomplished.

Infirmiry. Present infirmiry space is adequate. However, the men's infirmiry is located on the first floor of The Columns, and the women's infirmiry is located on the third floor of the same building. The proposed infirmiry would enable the college nurse to perform her duties more efficiently and would allow consolidation of offices.

Dormitories. Three dormitories are proposed for the near future—one for women and two for men. The men's dormitories will be erected in line with the present men's dormitory, one unit being located behind the Cottages and one to be located near the first Cottage.

ENDOWMENT

The Ten-Year Program sets up an endowment of \$2,000,000. General endowment will be \$1,500,000 and particular endowment, \$500,000. The latter will include the Liberal Arts, Graphic Arts, Business Education and Vocational Training.

FOREIGN STUDENTS

The College is approved by the United States Office of Education for the admission of foreign students.

VETERANS

The College is approved for the instruction of veterans. Veteran students entering under Public Law 550, Section 254, should note that this institution has and maintains a policy for the refund of the unused portion of tuition, fees, and other charges in the event the veteran fails to enter the course or withdraws or is discontinued therefrom at any time prior to the completion and such policy provides that the amount charged to the veteran for tuition, fees, and other charges for the portion of the course shall not exceed the length of the completed portion of the course bears to its total length.

STUDENT LIFE, ACTIVITIES AND SERVICES

The social life of the student is a major concern of the faculty and administration of Chowan College. The philosophy of Chowan seeks to promote the development of the individual student's personality to the point that the student will become a responsible citizen and leader. To help integrate the student into the college community and to help set up, direct and control the social activities, a faculty-student committee and a social director are named each year.

ORGANIZATIONS

All organizations of students must be approved by the College before meetings can be held on the campus. Official organizations must have filed constitutions with the Dean. The constitutions state the purpose of the organizations, membership qualifications, and by-laws.

Spanish Club. Any student of Spanish, former student of the language, or anyone interested in the language or the people is invited to join the organization. The group is interested in learning to sing Spanish songs, speak the language, understand the art, customs, et cetera, of the people.

Block C Club. To be eligible for membership in the Block C Club the student must be a participant in intercollegiate sports. The club sponsors the Blue-White football game at the close of spring practice, assumes an active role in providing student entertainment, and endeavors through sponsorship of public and student entertainment to raise funds annually for award jackets.

Phi Lambda Pi. The purpose of the literary societies, of which Phi Lambda Pi is one of the two, is to provide and to encourage an atmosphere of friendliness on the campus, to provide entertainment and social life, to discuss literary trends and materials, to develop oratorical abilities, and to train members in the procedure of conducting meetings.

Zeta Alpha Sigma. The purpose of this organization is explained in the preceding paragraph. The two societies enjoy friendly rivalry. Members of the organizations enjoy a bond of fellowship which is reflected in the social life of the campus.

MUSICAL ORGANIZATIONS

Students who are musically inclined may join the Glee Club, the Oratorio Society, and the instrumental group. The Glee Club receives many invitations for appearances during the annual tour. The tour is usually the highlight of the year. The Oratorio Society usually sponsors two concerts each year—one at Christmas and one at Easter.

RELIGIOUS ORGANIZATIONS

Baptist Student Union. This organization unifies and correlates the work of all the unit organizations of Baptist students under the leadership of the executive body—the Baptist Student Union Council. This council brings together the leaders of the different phases of religious life on the campus in order to plan, direct, and stimulate the various activities.

Young Woman's Auxiliary. The Young Woman's Auxiliary is related to the work of the Woman's Missionary Union, and has for its purpose the development in young women of an interest in supporting the work on the mission fields.

Ministerial Alliance. The Alliance, composed of the ministerial students, cooperates in religious activities seeking to promote a spiritual atmosphere on the campus. Meetings of the organization are designed to study the problems of the ministry. Members hold pastorates, conduct revivals, do supply and mission work.

Sunday School Classes. The Sunday School is a part of the program of the Murfreesboro Baptist Church and of Meherrin Baptist Church.

Baptist Training Union. This organization, too, is a part of the program of the churches. It is an organization composed of young men and women who are members of Baptist Churches.

PUBLICATIONS

The Chowanian. The College newspaper is a monthly publication of the students. The paper is printed by the students in the College Printing School. Those interested in the journalistic and printing fields receive valuable experience.

The Chowanoka. The activities of each year are recorded in an annual. This pictorial life of Chowan College is gathered and edited by the students.

The Handbook. A handbook, edited by the Publications Committee, contains valuable information for all students, especially freshmen. This book contains the principal rules governing student conduct.

GOVERNMENT

Chowan College recognizes the value of student cooperation and leadership in the matters of personal and general welfare. Democratic practices in the college community can prepare students for democratic life outside the school. Therefore, the College administration has provided for student government in the men's and women's dormitories. Every student who enrolls in the college automatically becomes a member of the student government.

THE SPIRIT OF B. S. U.

In our hearts of learning Christ you did instill,
With His truth eternal you our hearts did fill.
Now we're ever eager goodly works to do:
In your service use us, Spirit of B. S. U.
In the midst of classes Christ we shall proclaim,
Lift our fellow students in the Savior's name;
To the church we'll bind them, show them life anew,
With the strength you give us, Spirit of B. S. U.
We are all one body, tho' from east and west,
We would serve the Master, put us to the test.
Thus with hearts united sin we shall subdue
With His love unfailing, Spirit of B. S. U.

—Mosely

ATHLETICS

Chowan College offers a diversified athletic program for both men and women. Major sports provided for men are football, basketball, and baseball. Teams in these sports compete with other junior colleges, preparatory schools, and junior varsity teams of the senior institutions. Women do not participate in intercollegiate sports but are offered softball, soccer, badminton, tennis, volleyball, basketball, swimming, archery and horseback riding in their physical education program.

Physical education is required of all students, unless excused by a physician. The College has a spacious gymnasium, athletic field for intramural sports, tennis courts, and an indoor swimming pool. The swimming pool is used all year by the students for instruction and recreation.

One of the outstanding advantages of the school is the giving to each student an opportunity to participate in one or more sports.

The personnel in the athletic department make every effort to prevent accidents and injuries to students participating in the program. Students are required to purchase accident insurance policies prior to or at registration or sign a waiver. The College assumes no liability for accidents or injuries sustained in athletic events.

GENERAL REGULATIONS

The Christian citizen at work is the standard to which every student is expected to conform. All appropriate means are used to develop and confirm a sense of personal honor and sacred regard for truth. Students will endeavor to refrain from any conduct, in or out of school, known to be damaging to themselves or to the school. In matriculating students, the College reserves the right to require the immediate withdrawal of any student who is found to be undesirable. Conduct becoming a lady or gentleman is expected on the campus and off. Any questionable conduct will be dealt with by the College authorities.

MORAL CONDUCT

(1) The use of profanity will be considered a violation of decent rules of conduct.

(2) Smoking is discouraged. It is permitted inside only in the smoking lounge and dormitory rooms.

(3) Drinking of intoxicants will not be permitted.

(4) Gambling, cheating, vandalism, and other forms of immoral conduct will be dealt with according to the offense.

(5) The possession of firearms, firecrackers, or explosives of any kind is prohibited on the campus.

(6) Those who neglect their studies, waste time, disregard the request of teachers, or fail to conform to the ideals of the College may be asked by the President to withdraw.

(7) A committee on student affairs appointed by the President, and in some cases, with the judiciaries, will handle cases of conduct.

CHAPEL

All students and professors assemble daily from 11:00-11:30 for chapel. The chapel hour is considered essential for the morale of the school and for each individual's vital need.

ROOMS

(1) Occupants of dormitory rooms will be held responsible for the good order of their rooms, as well as for any damage or defacement they may sustain.

(2) If a student destroys, defaces, or in any way damages college property, or aids and abets others in so doing, such student shall, within twenty-four hours, report the fact to the Bursar. Students will be charged pro rata for all damages not individually accounted for. This prorated amount will be taken from the contingent deposit.

(3) A student who moves from the room assigned without permission from the Registrar or Dean will be charged \$5.00.

(4) A deposit of \$1 will be charged for the key to each room. After the return of the key, the \$1 is refunded.

CLUBS

No clubs or societies shall be formed unless the faculty, on application made, approves the design of such association, the rules by which it is proposed to be governed, and the hours of meetings.

POINT SYSTEM

Extra-curricula activities are encouraged; however, to prevent some students from being overburdened with activities and thus neglecting their studies, the following point system has been devised by the student council:

President of student body.....	20
Publication editor	15
President of class	10
President of BSU, YWA, Society, WAA, Monogram Club	10
Major sport	10
Publication business manager	10
Secretary of student body	8
Library or office assistant	8
Publication staff member	8
Club secretary, treasurer, or reporter	5
Cheerleader	5
Committee chairman	5
Club membership	2

No student will be allowed to have more than 36 points.

LIBRARY

The library stacks and reading room occupy the entire second floor of the East Building. The room is well lighted with windows on three sides.

The library contains seven thousand volumes completely catalogued according to the Dewey Decimal System of classification and is supplied with card indexes of authors and titles, and more than twelve thousand cross reference cards.

The library is well equipped with encyclopediae and bound volumes of magazines covering a period of several decades. It also subscribes to the leading magazines of literary, scientific, musical, and artistic value, and to the daily and weekly newspapers.

The library is open every school day from 8:00 in the morning until 9:30 in the evening and from 8:00 to 12:00 on Saturday.

INFIRMARY

The college maintains on the third floor of the Administration Building a girls' infirmary equipped with modern hospital beds. A complete diet kitchen adjoins the infirmary rooms. The boys' infirmary is located on the first floor of the same building. The college nurse observes regular infirmary hours and is on call in the event of emergencies.

For cases of serious and protracted illness, arrangements will be made according to circumstances and instructions of parents.

Dormitory students too ill to go to class or attend to college duties are expected to go to the infirmary unless the nurse directs otherwise.

All doctor's fees and drugs are the responsibility of the student desiring the services of the doctor and drugs.

INSURANCE

The College carries with the North American Assurance Society of Virginia accident insurance on all students for the nine months of the college year. After the insurance is in force it applies at all times on or off the campus. The benefits are up to \$1000 for all students except the football boys, which is \$600.00.

GUIDANCE AND COUNSELING

The College believes that a close relationship between student and teacher is an essential phase of education. This friendly association, which a junior college offers, makes for easy transition from high school to college.

Upon arrival on the campus the student will find that every member of the faculty and administrative staff is interested in his success and adjustment to college life. Through a testing program, a study of his high school record, activities, experiences, and vocational interests an effort is made to discover his strengths and weaknesses. Special trained advisers, as well as each member of the faculty, will be glad to help each student with a choice of a course of study.

Upon graduation he will receive help and advice in finding a position or advice in the selection of an institution in which to continue his formal education.

SCHOLARSHIPS OFFERED AT CHOWAN COLLEGE

Several \$100 Trustee Scholarships for qualified students.

"Adalia Futrell Scholarship" of \$120, given by her son William Futrell, Rich Square, North Carolina.

Two, \$100 Scholarship by J. Henry Jones, Red Oak, North Carolina.

Two, \$100 Scholarships given by the Baptist Woman's Missionary Union of Bertie County for students from that County.

One, \$100 Scholarship given by Baptist Missionary Union of Hertford County for a student from that County.

One, \$100 Scholarship given by Baptist Woman's Missionary Union of Northampton County for a student from that County.

One, \$100 Scholarship given by the Ahoskie Baptist Church.

Mrs. Jesse Smith Scholarship, for the students from the Mills Home, by Mrs. Jesse Smith. Mrs. Smith left \$5000 in her will to endow this scholarship.

Jack H. Boyd, Jr. Scholarship, awarded annually to one student from Johnson County on the basis of ability and financial need. This scholarship of \$200 is established by J. H. Boyd, Sr. in honor of his son. Selection is made by the County Superintendent of Public Instruction.

Mary Pearce Music scholarship of \$50.00 awarded each year to a second-year student in music.

LOAN FUNDS

"Joseph Lee Parker Loan Fund" of \$500. Loans to be made to students from Hertford County and to only "A" students.

R. C. Whitehurst, Loan Fund of \$200, Murfreesboro, North Carolina.

"Friendship Loan Fund" by a friend—\$1000.

The College has a small loan fund.

Some loans are available from trust funds.

MINISTERS, CHILDREN OF MINISTERS, CHILDREN OF FACULTY MEMBERS

To the ministerial student Chowan College grants \$120 per year. However, ministerial students must sign notes for the amount of aid given. If at the end of five years they have met the conditions set out in the notes, the principal condition being that the student enter the field of service for which he is being trained, the notes are cancelled. Otherwise, the notes must be paid.

Children of ministers and children of faculty members receive \$60 per year.

WORK GRANTS

These are not to be construed as scholarships. A limited number of work positions on the campus are open to student employees. The work grants are issued on the basis of financial need and on willingness and ability to perform the work assigned. Application blanks for work grants may be obtained from the Registrar.

Applications for scholarships or loans should be made on the proper forms secured from the Dean's Office.

EXPENSES

Expenses for the year for students who do not live on the campus	250.00
For one semester	125.00
**One fourth payment	62.50

EXPENSES

*Expenses for the school year that apply to all boarding students	\$680.00
(Includes tuition, matriculation, room, board, insurance, etc.)

*The fee does not include books, laundry, doctor's fees and medical emergencies.

**Please consult Calendar for pay dates. Student may pay by the year, semester, or twice a semester.

No credit for work may be given for a diploma or for transfer purposes until all financial obligations to the College have been paid or adequately secured.

ACADEMIC REQUIREMENTS

DEGREES OFFERED

Chowan College offers the Associate of Arts degree. The College also offers a diploma in Business Education, Graphic Arts, and Agriculture.

ADMISSION

To gain admission to the College, the prospective student who has not previously attended college should:

1. Obtain from the College an application for admission blank, a high school transcript blank, and a medical report.

2. Fill out completely the application for admission and mail it along with a \$5.00 registration fee to the Registrar of Chowan College.

3. Have the high school principal fill out the high school transcript blank and mail it to the Dean of Instruction of Chowan College.

4. Have the family doctor fill out the medical report. This may be sent with application for admission. It must be received before the applicant will be accepted for admission.

The student who transfers to Chowan College from another college should follow the same procedure and ask his registrar to mail a transcript of college work.

1. BY CERTIFICATE. Graduates of accredited high schools are admitted on certificate from the proper school official. It is important that the certificate of high school credits reach the college early. Certification blanks for high school records may be obtained on application to the Registrar.

2. BY EXAMINATION. All scholarship requirements may be met by examination at the opening of the session for applicants who present satisfactory evidence that they have completed the equivalent of the work required for graduation in accredited four-year high school.

3. BY SPECIAL PERMISSION. Students who are not qualified to enter under either of the other two methods, or who, for any reason, wish to take college courses may enter as special students. No credit toward graduation will be allowed until the entrance requirements are met.

4. MILITARY VETERANS. A veteran who demonstrates his ability to do college work may enter as a special student or may qualify by taking the G.E.D. Test.

REQUIREMENTS FOR ADMISSION

Chowan College desires to enroll only persons who are trustworthy and studious and who possess those qualities that make for a congenial adjustment to college life. Evidence of good moral character and desirable personal traits will be considered of first importance.

Graduation from high school with a total of sixteen (16) units is required. All students should submit:

English	4 Units
Algebra (1½ recommended)	1 Unit
Plane Geometry	1 Unit
Science (Biology, Chemistry or Physics)	1 Unit
Electives	9 Units

*A student who does not offer the foregoing units and plans to transfer to a college requiring them or to follow a program of study in which they are required, will be expected to take them at Chowan without college credit.

TRANSFER STUDENTS

Students who transfer from other colleges must have their transcript sent before being admitted. No courses with grades lower than C will be accepted. In order to enter as a student of sophomore standing, one must have a minimum of 25 semester hours of credit and 25 quality points.

PHYSICAL EXAMINATION

All students are required to present prior to entrance a health certificate or medical report. These report forms are sent the student upon application for admission and must be returned before formal approval of the student is made.

VETERANS

Veterans should file with the Veterans Administration prior to making application to Chowan College. The Veterans Administration will forward all such applications to the College. In the event the candidates program is not approved prior to registration, two months may be required to get approval.

REGISTRATION

Registration days are indicated on the Calendar in the front of this bulletin. All students should complete registration on the days set aside. Those enrolling thereafter will be charged an extra fee of \$5.00.

REQUIREMENTS FOR GRADUATION

To receive the Associate of Arts diploma, a student must satisfy the following regulations:

1. The student must have satisfactorily completed two years of college work and must have obtained 60 semester hours of credit in college work, exclusive of physical education and non-theory courses. He must have completed at least two semester hours in physical education.
2. Because of the requirements for graduation from four-year colleges, no student can graduate who has not merited at least a quality-point ratio of 1.0 This means an average of C. Such requirements are based on all courses attempted.
3. The student must have pursued and completed the prescribed curriculum, as outlined in this bulletin.

THE BASIC REQUIREMENTS

FOR ASSOCIATE DEGREE

Sem. Hours	Courses
6	Religion
12	English
8	Science (Biology, Chemistry, Physics)
6	College Algebra, Trigonometry
2	Physical Education
6	History or Social Studies
*12	Language or Approved Electives

*This requirement will be governed by the requirements of the institution to which the student wishes to transfer.

SYSTEM OF GRADES

A—95-100
B—90-94
C—80-89
D—70-79
WF—Withdrawn failing
WP—Withdrawn Passing

GRADES

If on account of illness or any other emergency a student does not complete the work of his course, his grade is recorded as "I" (Incomplete). The work recorded as "I" must be completed before the end of the following semester.

All conditions must be removed thirty days before the end of the last term of the student's graduating year. Otherwise, the student's name will be dropped from the class roll. Special examination fee is \$5.00.

A student who receives a grade "F" on a course or fails to remove a conditional failure by one re-examination must repeat the course for credit. No grade higher than "D" may be assigned as a result of a re-examination.

If a student is conditioned on a regular examination of the final term of his graduating year, he is not allowed to take a re-examination before the next term.

REPORTS

At the end of each semester a report for each student is sent to the student and to the parents or guardians. This report contains the grade and the number of absences. These grades are recorded on the permanent records in the Registrar's office.

ACADEMIC REQUIREMENTS

SCHOLASTIC REQUIREMENTS

The faculty and administration maintain high scholastic standards and exact from the students certain requirements for continued attendance in the College.

A regular student must pass nine semester hours work each semester. If at any time during the course of the semester the student fails to pass the required hours, he will be restricted in his activities. If at the end of any semester the student fails to pass the required nine hours, he will be placed on scholastic probation. Such probation requires the student to relinquish all privileges and prevents his representing the College in any manner. Unless the student removes himself from probationary status the following semester by passing nine semester hours work he will be asked to appear before the Dean of Instruction and Curriculum Committee who will decide whether or not the student will be asked to withdraw from the College for one semester.

Students pursuing a degree in Business Education must make a "C" on all subjects in the major field. No credit toward a degree will be allowed students making below a "C" on any business subject.

Special students can in no way represent the College except with special permission of the Dean of Instruction and the Curriculum Committee.

ACADEMIC LOAD

Each student enrolled in the College is expected to carry sixteen hours of work each semester. This is considered the normal load for the average student. No regular student will be allowed to carry less than nine hours nor more than eighteen hours in any semester. To pursue a heavier load than eighteen hours the student must obtain the permission of the Dean of Instruction.

QUALITY POINT SYSTEM

Students are awarded quality points on the basis of the grade they make:

A—three quality points per semester hour credit.

B—two quality points per semester hour credit.

C—one quality point per semester hour credit.

D—no quality points per semester hour credit.

A 1.0 quality point ratio is required for graduation. This means that a student must have at least as many quality points as hours attempted. In addition to the above requirements, students in the Department of Business Education must pass all business subjects with a grade of "C" or better in order to qualify for a certificate or diploma in that department.

HONOR ROLL

Students who have a 2.5 average for a semester will be placed on the honor roll. Students having a 2.0 average on all work attempted will be placed on the Dean's list.

ABSENCES

CLASS ABSENCES

No free "cuts" or absences are granted. However, last semester sophomores whose names appear on the Dean's list will be granted three free cuts under the provision that no two cuts be taken consecutively.

A student who is absent from class more times than twice the number of periods the class meets per week will be charged with one-half semester hour per course missed, this negative hour to be charged against the total number of hours for which the student is enrolled. If he is absent more than thrice the number of times the class meets per week, he will be dropped from the class.

In event of personal illness the student should notify the college nurse prior to the scheduled hour of the class. In other cases permission should be secured from the Dean's office prior to the absence.

CHAPEL ABSENCES

No free absences are granted. The only exception to this rule

is listed in the rule concerning class absences. That rule stipulates that a last semester sophomore whose name appears on the Dean's List may be granted three excused absences.

Failure to attend chapel exercises will result in probation after the first absence is incurred. Subsequent absences or violations of the terms of probation will result in automatic suspension.

HOLIDAY ABSENCES

The College grants no excused absences immediately preceding and immediately following stated holidays. Only in a case of an emergency will an exception be made.

TRANSCRIPTS

Every student is entitled to one free copy of his college transcript. For additional copies there is a fee of \$1.00 each. Also, transfer students from other colleges must present to the Registrar a transcript from that college before he can be classified.

CHANGES OF CLASSES

A student making a change in his class schedule after completion of his registration will complete this procedure:

1. Obtain proper forms from Registrar's office.
2. Secure the signature of the professor in whose class he is enrolled.
3. Present to the Registrar for final approval.

No change may be made in classes after two weeks or six class periods of the semester have elapsed.

DROPPING OF CLASSES

Courses may be dropped after the two-week period without penalty under the following circumstances:

1. Extreme illness, in which case a physician's certificate must be submitted and approved by the Dean.
2. Other circumstances beyond the student's control, approved by the Dean.

In the event of the above conditions the student shall receive the grade of WP signifying passing at the time of withdrawal or the grade of WF signifying failure as indicated by the professor.

All withdrawals without the Dean's permission will receive F in all courses pursued.

Students who formally withdraw within one week following the scheduled pay period are entitled to a refund of 80 per cent of the fees paid for the semester; those who withdraw during the period between one and two weeks after the scheduled pay period are entitled to a refund of 60 per cent of the fees paid for that semester; those who withdraw during the period between two and three weeks after the scheduled pay period are entitled to a refund of 40 per cent of the fees paid for that semester. Those students

who withdraw as late as three weeks after scheduled pay period are entitled to no refund for any fees paid for any part of the semester. Any student who is asked to withdraw from the college at any time for the infraction of the rules is not entitled to any refund or any part of fees paid for that semester.

Veteran students entering under Public Law 550, Section 254, should note that this institution has and maintains a policy for the refund of the unused portion of tuition, fees, and other charges in the event the veteran fails to enter the course or withdraws or is discontinued therefrom at any time prior to the completion and such policy provides that the amount charged to the veteran for tuition, fees, and other charges for the portion of the course shall not exceed the length of the completed portion of the course bears to its total length.

PROGRAMS OF STUDY

The three programs offered are: First, Vocational for students who wish to enter employment after graduation; second, General Cultural for those who wish to complete their college education at the second year level; and third, the first two years of college leading to the B.S., B.A., and the various professional degrees in four-year colleges.

Courses in the vocational or terminal program are numbered from 1-99. Upon the completion of any of these programs the student is awarded a diploma of efficiency.

Courses in the general education and the college degree programs are numbered from 101 to 299. Upon the completion of either of these two year curricula the student is awarded a diploma with the Associate Arts degree.

STUDENTS UNDECIDED ABOUT CURRICULUM

Students who have not yet decided upon a course of study are urged to take the liberal arts course. Work in the liberal arts leads to degrees in teaching, medicine, law, business administration, science, journalism, ministry and others.

*Electives may be substituted where typing was taken in high school.

*Electives will be approved by Department Head.

MEDICAL AND LEGAL SECRETARIAL

Leading to Chowan College A.A. Degree and Two-Year Diploma. This Course is designed to prepare the students for employment upon graduation as Medical Secretaries. However, most of this work is transferable leading to a degree in Business in Senior Colleges.

*Veterans registered in the Graphic Arts Department do not follow this curriculum. The Veterans Administration requires the veteran student to spend a minimum of 30 hours per week in class. Veteran's classes cannot be worked out until the number of students is known. Then, the veteran's schedule is worked out on an individual basis.

THE LINOTYPE—One of ten typesetting machines in the school of printing. Skilled operators are well paid and in great demand.

Description of Courses

AGRICULTURE

The main objective of the Agriculture Department is to fit the instruction to the needs of the student. Each student will know the type and kind of instruction that he needs most, and, as far as possible, this will be given. Instruction in the following courses will be available.

1. *Farm Shop* 3 semester hours

Review of all previous training, including proper use and care of farm tools and woodworking machines. Training will be given in forging, soldering, tempering, concrete and masonry work, arc and oxy-acetylene welding, and electric wiring. Some construction, repair, and remodeling jobs may be done in the shop and taken home by the student.

2. *Farm Equipment* 3 semester hours

A study of the latest equipment used in modern farming. Emphasis will be placed on the efficiency of the equipment, proper selection for the job, adjustment, and safety in operation.

3. *Pasture and Forage Crops* 3 semester hours

A study of the establishment and maintenance of pastures; also the selection, adaptation, fertilizer requirements, harvesting, and use of the principal forage crops.

4. *Farm Buildings* 3 semester hours

A course dealing with the proper location, arrangement, estimating cost of materials for construction and remodeling of farm buildings.

5. *Livestock Production* 3 semester hours

This course will deal principally with the improvement of the leading types of livestock, including selection, breeding, feeding, management, marketing, and parasite and disease control.

6. *Poultry Production* 3 semester hours

A study of the principal factors in poultry production, such as, the proper selection, breeding, feeding, brooding, housing, culling, marketing, and parasite and disease control.

7. *Field Crops* 3 semester hours

A study of the latest approved and recommended varieties of corn, small grain, legumes, and cash crops, including their adaptation, plant food requirements, cultural methods, harvesting, use, and insect and disease control.

21. *Farm Machinery* 3 semester hours
A study of the operation, care, and repair of farm tractors and engines, including the principles of the operation of internal combustion engines, clutches, transmissions, drives, engine troubles, general repair, servicing, and efficient operation.
22. *Farm Management* 3 semester hours
A study of the principles of the successful operation of a farm, such as, the proper balance between enterprises, farm planning, keeping farm records, measuring farm efficiency, and profitable production and marketing.
23. *Farm Machinery* 3 semester hours
A study of the general problems in the management of the farm woodlands, including replanting the farm woodlands, tree identification, tree measurements, growth and development of forest stands, intermediate and final cuttings, forest protection, and utilization of forest products.
24. *Fruit and Vegetable Production* 3 semester hours
A study of the principles of fruit and vegetable growing, with attention upon the selection of varieties, soil adaptation and preparation, fertilization, cultural practices, harvesting, grading, packing, marketing, and insect and disease control.
25. *Home Improvement* 3 semester hours
A study of the establishment and care of lawns, shrubbery, and flowers, and the repair of furniture and home appliances. Young women may take this course.

MECHANICS

1. *Gasoline Engines* 2 Semester hours
A practical study of the operation and care of the engine, including the principles of operation.
2. *Transmissions* 2 Semester hours
A study of clutches, transmissions, differentials and final drives.
3. *Cooling System* 2 Semester hours
A study and repair of radiators, water pumps and water hoses.
4. *Electrical System* 2 Semester hours
A study of generators, starters, lighting and wiring of the automobile.
5. *General Mechanics* 2 Semester hours
Practical work on cars, trucks, tractors, and motors.

BUSINESS

91. *Office Machines* 1 Semester hour

Techniques of operating calculators, adding-listing machines, duplicating machines, etc. Laboratory fee required.

92. *Secretarial Accounting* 3 semester hours

A one-semester course open only to secretarial students. Designed to give a working knowledge of the fundamentals of record-keeping.

93. *Business Arithmetic* 3 semester hours

A comprehensive course in arithmetic problems encountered in business. It provides training in all the fundamentals of arithmetic as applied to various business functions.

94. *Medical Shorthand* 2 semester hours

Development of skill in taking specialized dictation in the field of medicine. Drills on medical terminology. Open only to medical secretaries.

96. *Legal Shorthand* 2 semester hours

Development of skill in taking specialized dictation in the field of law. Special drills on legal terminology. Open only to legal secretaries.

101. *Economic Geography* 3 semester hours

A study of the essential resources, agricultural production, manufacturing and trade routes of the world.

103. *Introduction to Business* 3 semester hours

A survey course of the various types of business organizations which provides essential background information for the beginning business administration student.

105. *Office Practice* 3 semester hours

A one-semester course for secretarial students only. Gives training in general office procedures and duties.

106. *Salesmanship* 3 semester hours

A study of the psychology of selling. Effective techniques of modern-day selling.

107-108. *Beginning Typewriting* 3 semester hours

Mastery of the keyboard by the touch method, and the techniques of touch-typing. Instruction in manuscript typing, letters, and business forms. Five days per week. Laboratory fee.

107-108. *Beginning Typewriting* 3 Semester hours

Gregg Simplified Method is used to develop reading and writing skills. Five days per week, two semesters.

201. *Principles of Accounting* 3 semester hours

The beginning course in accounting which develops the mechanics of record keeping. Sole proprietorship practice set.

202. *Principles of Accounting* 3 semester hours

A continuation of the fundamentals of accounting as applied to partnerships and corporations. A practice set in which a partnership is re-organized as a corporation will be required. Prerequisite: 201.

203. *Intermediate Accounting* 3 semester hours

A study of the asset, liability, and net-worth accounts of the balance sheets and income statements. Prerequisite: 202.

204. *Cost Accounting* 5 semester hours

A study of accounting theory and principles as applied to job-order, process, and standard-cost systems in manufacturing. A process-cost practice set will be used to give practical application. Prerequisite: 203. Class meets 5 days per week.

205. *Income Tax Accounting* 3 semester hours

A course in Federal and State tax Regulations. Will enable the student to prepare tax returns for individuals and corporations. Prerequisites: Sophomore standing.

206. *Money and Banking* 3 semester hours

A thorough coverage of the nature and operation of our money and banking systems, and an analysis of present-day monetary problems.

207-208. *Advanced typing* 3 Semester hours

Prerequisite, 108 or equivalent. Further development of skill and accuracy in touch-typing. Introduction to electric typewriters.

209-210. *Advanced Shorthand* 3 Semester hours

Prerequisite, 110 or equivalent. Further development of speed and accuracy. Transcription emphasized.

211-212. *Business Law* 3 Semester hours

A two-semester course dealing with contracts, sales, negotiable instruments, property and other applications peculiar to business transactions.

213. *Mathematics of Investment* 3 semester hours

Complete coverage of the fundamentals of the mathematics of finance, emphasizing analysis and the adaptation of data to general use.

214. *Industrial Management* 3 semester hours

Economic aspects of management are emphasized in study of management planning, organization and control.

215-216. *Principles of Economics* 6 semester hours

A two-semester course in the fundamentals of modern economic theories with emphasis on the practical implications of our national economic policy.

ENGLISH

1. *English* 3 semester hours

A course for students whose deficiency in English has been revealed by placement examinations. First semester. Five times a week.

101. *English-Combination Course* 3 semester hours

A combination of English I and the regular Freshman English Course (103). For those deficient in English, but desiring college credit. Five times a week. First semester only.

103. *English* 3 semester hours

Regular course for properly qualified freshmen meeting the requirements of the standard placement tests. Includes frequent drill and practice in the fundamentals of grammar, spelling, and composition, with library assignments. First semester only, unless demand necessitates repetition of course in second semester.

104. *English* 3 semester hours

A continuation of Course 103 with emphasis upon advanced composition, including a research paper and frequent supplementary reading of literary masterpieces.

201. *English* 3 semester hours

A comprehensive survey of representative writers from the beginning of English literature to Samuel Johnson and his circle, with parallel reading and class discussion. First semester.

202. *English* 3 semester hours

A continuation of 201, from the days of Samuel Johnson to contemporary times. Second semester.

203. *English—Introductory Speech* 3 semester hours

The principles of public speaking. Some attention is given to parliamentary procedure. Oral reading and library assignments. Open to those who have completed English 103.

204. *English—Journalistic English* 3 semester hours

A course in the practice of news writing, including the mastery of such problems as reader interest, the correct lead, and editorial writing.

3. *English—Printers' English* 2 semester hours

A course designed for the students of Graphic Arts, with emphasis on word study, including spelling, syllabication, and hyphening, and a review of grammar, capitalization, and punctuation. Required of first-year students in Graphic Arts. First semester.

4. *English—Printers' English* 2 semester hours

Continuation of English 3. Second semester.

GRAPHIC ARTS—PRINTING

1. *The Practice of Printing I* 10 semester hours

A study of the history of the great industry of printing; types and materials used in printing and how to use them; the setting and make-up of printed forms and advertisements.

2. *Elementary Platen Presswork.* 10 semester hours

To learn the mechanics of the platen press and the methods of producing certain types of printing.

3. *Linotype Keyboard Practice* 5 semester hours

To study the fingering system of the Linotype keyboard and to determine if the student has an aptitude necessary to become a competent operator.

21. *Practice of Printing II* 10 semester hours

To study the principle of balance, proportion, harmony and contrast in printing; to set and make-up intricate forms and advertisements; the study of papers used in printing; illustrations and their use.

22. *Printing Layout and Design* 5 semester hours

Practice of designing newspaper advertisements and printed forms; newspaper ad-room practice and procedure; separation of color forms; a knowledge of photo engravings.

23. *Linotype and Teletypesetter Maintenance* 5 semester hours

Diagnosing troublesome conditions that develop in the operation of Linotypes and Teletypesetter attachments; to learn the care and maintenance of the machines.

24. *Newspaper Advertising and Makeup* 5 semester hours

The practice of newspaper makeup; how to put punch in the setting of newspaper advertisement; how to mark ad copy; the setting of effective heads; producing a newspaper.

25. *The Teletypesetter Perforator* 3 semester hours

A study of the difference in arrangement of the teletypesetter keyboard and that of a standard typewriter; practice in operating the keyboard to learn to read the perforated tape and to prepare students for employment as efficient operators.

LANGUAGES

FRENCH

101-102. *Elementary French* 3 semester hours

For those with no previous study of the language. Fundamentals of grammar. Simple composition. Constant training in pronunciation based on phonetics. Simple readings during second semester.

201-202. *Intermediate French* 3 semester hours

Two years of high school French or French 1 and 2 required. Rapid review of grammar, idiomatic constructions, and vocabulary based on reading of selected authors. Frequent dictations and some conversational French.

251-252. *Introduction to Literature* 3 semester hours

Rapid review of most difficult parts of grammar. Survey of French literature from Chanson de Roland to eighteenth century with particular emphasis upon seventeenth century selected texts read from literature and linguistic point of view.

LATIN

101-102. *Latin* 3 semester hours

A course intended for students who have never studied Latin and for those who present only one unit of Latin for entrance.

201-202 *Latin* 3 semester hours

Continuation of Latin 1. Some study made of the Roman political and social institutions. Reading of selections from Latin masterpieces.

SPANISH

101-102 *Elementary Spanish* 3 semester hours

Introduction to the Spanish language through contact and use. Emphasis on grammar, graded readings, and simple conversation. Completion of 102 necessary in order to receive credit for 101.

201-202 *Intermediate Spanish* 3 semester hours

Prerequisite, 101-102 or two years high school Spanish. Review of grammar. Class readings and conversation.. Completion of 202 necessary in order to receive credit for 201.

THE ATHLETIC PROGRAM—Chowan College participates in all major sports, football, basketball and baseball.

HEALTH AND PHYSICAL EDUCATION

103. *Hygiene*

3 semester hours

A course designed to give a general knowledge of the body that will result in a more wholesome life. Personal health problems are emphasized. Mental, physical, and social factors influencing health are studied.

WOMEN

101. *Recreational Activities*

1 semester hour

A course in in-door and out-door competitive sports designed to be helpful in playground and church recreation. Three hours per week.

103. *Elementary Swimming*

1 semester hour

The fundamental skills in executing various strokes are emphasized. Three hours per week.

104. *Elementary Tennis*

1 semester hour

A beginner's course designed to teach basic rules and skills. Three hours per week.

105. *Volleyball and Basketball*

1 semester hour

Development of fundamental skills. Study of rules. Three hours per week.

106. *Recreational Games*

1 semester hour

A beginner's course designed to teach the basic rules and skills of archery, badminton, horseshoes, and shuffleboard. Also, includes training on the care of the equipment. Three hours per week.

107. *Stunts and Tumbling*

1 semester hour

Three hours per week.

208. *Advanced Swimming*

1 semester hour

Prerequisite: Student must have passed 103 or equivalent. Three hours per week.

210. *Advanced Tennis*

1 semester hour

Prerequisite: 104 or its equivalent. Three hours per week.

MEN

151-152. *Basic Physical Education*

1 semester hour

Basic courses consisting of conditioning activities of low and high organization, vigorous individual and team games to develop fundamental skills according to the needs of the individual. Three hours per week.

153. *Elementary Swimming* 1 semester hour

The fundamental skills in executing various strokes are emphasized. Three hours per week.

154. *Recreational Games* 1 semester hour

Basic course in fundamentals and rules of games and minor sports. This course is designed for those interested in church, Y.M.C.A., Boy Scout, or school work. Three hours per week.

155-156. *Organized Games* 1 semester hour

These courses stress team play in games such as volleyball, touch-football, basketball, soccer, badminton, tennis, and field and track. Three hours per week.

157. *Tumbling and Apparatus* 1 semester hour

Primarily basic work on mats and horizontal bars, as well as rope climbing. Three hours per week.

281. *Theory of Football* 2 semester hours

A course recommended for all varsity football players and boys interested in coaching and officiating. A theory course elaborating on offense and defense, methods of teaching fundamentals, purchasing and care of equipment, and treatment of injuries. Two hours per week.

282. *Theory of Basketball* 2 semester hours

A course recommended for all basketball players and students interested in coaching and officiating. A theory course elaborating on individual fundamentals, offense and defense, interpretations of rules, and training for officiating. Two hours per week.

284. *Theory of Baseball* 2 semester hours

A theory course elaborating on individual play and team strategy, official rules of scoring, organization and management, and treatment of injuries. Two hours per week.

258. *Advanced Swimming* 1 semester hour

Physical Education 153 or its equivalent is a prerequisite for this course. Three hours per week.

MATHEMATICS

1. *Mathematics Review* No college credit

This course is designed for those who have insufficient background in mathematics. It begins with basic arithmetic and attempts to prepare the student for College Algebra 101.

3. *Plane Geometry* No college credit

While this course includes the full high school subject of Euclidian Geometry, it covers a great deal more in logical analysis and the psychology of the reasoning process that is of particular value to all engineering and pre-law students. The course is requir-

ed of all liberal arts students whose transcripts indicate a deficiency and who are candidates for the AA degree. Three hours per week.

101. *College Algebra* 3 semester hours

A digest of work usually covered in a review of second-year high school algebra, including the fundamental operation, factoring, linear, and quadratic equations with special attention to exponents, radicals, the binomial theorem and progressions. This course includes also the same work as Algebra 103. Five hours per week.

103. *College Algebra* 3 semester hours

This is the standard freshman course in college algebra. It meets the needs of mathematics and physical science majors, as well as the requirements of students of engineering and of higher accountancy and finance. Prerequisites: One and one-half years algebra. Three hours per week.

104. *Solid Geometry* 3 semester hours

Geometry of figures in space; including a review of plane geometry, a study of formulas and their application. Required of all pre-engineering students who enter without a previous study of solid geometry. Prerequisite: Plane Geometry

105. *Plane Trigonometry* 3 semester hours

This course is a study of trigonometry, beginning with the definition of trigonometric functions and continuing through the fundamental identities, multiple angles, solutions of trigonometric equations, and solutions of the general plane triangle. Also included is the study of the radian and inverse trigonometric functions. Prerequisite: College Algebra

112. *Engineering Drawing* 3 semester hours

Free-hand lettering, orthographic projection, auxiliary views, sectional views, use of working drawings, isometric projection, technical sketching, perspective, pencil and ink tracings.

201. *Analytical Geometry* 3 semester hours

Construction and discussion of loci in the plane; straight lines, circles, simpler properties of the conics, polar coordinates; parametric equations, introduction to solid analytical geometry.

This is the regular course in analytic geometry offered for students who plan to major in mathematics or to study engineering.

202. *Calculus* 6 semester hours

Differential and integral calculus are offered. The formulas for differentiating algebraic and transcendental functions are developed and applied to the study of problems dealing with maxima and minima, curvature, velocities, and acceleration. Integral deals with the methods of integration with applications to problems such as the determination of areas, volumes, centroids, moments of inertia, and arc length. Double and triple integrals

are studied together with a brief treatment of infinite series. 6 hours per week. Prerequisite: Mathematics 201

203. *Statistics* 3 semester hours
A study of the elements of statistics and their applications.

APPLIED MUSIC

121. *Voice* 2 semester hours

Technical exercises for the development of diction, tone quality, and breath control. A study of the early Italian and English songs. 6 hours' practice per week; 2 half-hour lessons per week. Prerequisite: pre-examination.

122. *Voice* 2 semester hours

A continuation of Voice 121. More emphasis is placed on the study of the early Italian and English songs. 6 practice hours per week; 2 half-hour lessons per week. Prerequisite: Voice 121.

221. *Voice* 2 semester hours

A continuation of Voice 122. A study of more difficult songs, stressing French and German songs. 6 practice hours per week; 2 half-hour lessons per week. Prerequisite: Voice 122

222. *Voice* 2 semester hours

A continuation of Voice 221. 6 practice hours per week; 2 half-hour lessons per week. Prerequisite: Voice 221

ORGAN

A student may take organ only after he has shown proficiency at the piano.

- 121-122. *Organ*

Manual and pedal technique; Bach's Eight Little Preludes and Fugues; *elementary compositions involving the fundamentals of registration*; 6 hours practice per week; 1 half-hour lesson per week.

- 221-222. *Organ*

More difficult preludes and fugues of Bach; Mendelssohn, Franck and Purcell sonatas; modern school works; accompanying; 6 hours practice per week; 1 half-hour lesson per week.

PIANO

121. *Piano* 2 semester hours

Technical exercise stressing all the major and minor scales and arpeggios in the 'sharp' keys: Bach inventions, the easier sonatas of Mozart, Haydn and Beethoven; the easier preludes, waltzes, mazurkas and nocturnes of Chopin; other works of classical, romantic and contemporary composers. 12 practice hours per week. 2 half-hour lessons per week. Prerequisite: examination.

122. *Piano* 2 semester hours

A continuation of Piano 121. Technical exercises stressing all the major and minor scales and arpeggios in the "flat" keys. 12 practice hours per week. 2 half-hour lessons per week. Prerequisite: Piano 121.

221. *Piano* 2 semester hours

A continuation of Piano 122. Continuation of all major and minor scales and arpeggios in all keys. 12 practice hours per week. Prerequisite: Theory 131.

222. *Piano* 2 semester hours

A continuation of Piano 221. More stress on artistry and interpretation. Preparation for recital. 12 practice hours per week. 2 half-hour lessons per week. Prerequisite: Piano 122.

CHORAL ENSEMBLES

111-112. *College Choir* 2 semester hours

Membership in the choir is available to a limited number of singers selected through competitive auditions. Special attention is given to study and performance of sacred choral music. The choir represents the college in special concerts and tours. 5 rehearsals per week.

113-114. *College Chorus* 1 semester hour

A large mixed chorus with unlimited membership. Study and performance of sacred and secular music. The Chorus and the Chowan Oratorio Society combine to sing Handel's *Messiah* each Christmas. 3 rehearsals per week.

115-116. *College Male Chorus* 1 semester hour

A large male chorus with unlimited membership. Study and performance of sacred and secular music for male voices. 3 rehearsals per week.

THEORY OF MUSIC

131. *Theory* 3 semester hours

A course in the construction of music with emphasis on written theory, sight-singing and dictation. A study in the use of one-to-one counterpoint. Required of all music majors. 3 hours per week. Prerequisite: examination.

132. *Theory* 3 semester hours

A continuation of Theory 131. A study in the use of two-to-one counterpoint. Required of all music majors. 3 hours per week. Prerequisite: Theory 131.

233. *Theory* 3 semester hours

A continuation of Theory 132. A study in the use of three-to-one counterpoint. Required of all music majors. 3 hours per week. Prerequisite, Theory 132.

234. *Theory* 3 semester hours

A continuation of Theory 233. A study in the use of four-to-one counterpoint. Analysis of the elementary forms in music. Required of all music majors. 3 hours per week. Prerequisite: Theory 233.

MUSIC APPRECIATION AND HYMNOLOGY

141. *Music Appreciation* 3 semester hours

A course designed to enhance the non-music major's understanding and appreciation of music through research, class discussion and listening to recordings of music from the 17th century to the present. 3 hours per week.

143. *Hymnology* 3 semester hours

A critical study of the Greek, Latin and German hymns through research, class discussion and analyzation. 3 hours per week.

144. *Hymnology* 3 semester hours

A critical study of the French and English hymns and the Gospel Song through research, class discussion and analyzation. 3 hours per week.

RELIGION

101. *New Testament* 3 semester hours

Special study is made of the life of Christ as revealed in the Gospels. The spread of Christianity is traced through the first century with special attention to Acts and the Letters. An effort is made to show the relationship of Christianity to Western Culture.

102. *Old Testament* 3 semester hours

A study is made of the leading facts of the history of the Hebrew people as given in the Old Testament from the time of Creation to the return from Exile. The prophetic and poetic books are studied in connection with the periods and events to which they are related.

201. *The Church and Its Organization* 2 semester hours

A study of the church, general and local, with emphasis upon the purposes, methods, and organizational setup of the Sunday School, the Training Union, the Woman's Missionary Union, and the Brotherhood. Free Literature, observations, and projects are used frequently as aids to background material. Prerequisites: Religion 101 and 102.

202. *The Church and Its Program of Religious Education* 2 semester hours

A study is made of the doctrines, government, and officers of the church. Attention is also given to the methods and specialized services of the church: religious drama, visual aids, stewardship, and missions. Prerequisites: Religion 101 and 102

SCIENCE

BIOLOGY

101-102. *General Biology* 4 semester hours

An introductory course in which the fundamental facts of the structure and activities of plants and animals are studied. Laboratory work consists of the study of important biological principals. and the study of representatives from the plant and animal kingdoms. Three hours lecture and recitation and two hours laboratory per week.

211. *General Botany* 4 semester hours

A study of the taxonomy, morphology, and physiology of plants. Three hours lecture and recitation and two hours laboratory per week. On demand. Prerequisites Biology 1 and 2.

212. *Field Botany* 4 semester hours

Collection, identification, and study of plants as they exist in nature. Ecological relationships are stressed. Three hours lecture and recitation and two hours laboratory per week. On demand.

221-222. *Anatomy and Physiology* 3 semester hours

Reading and lectures about human anatomy and physiology, including emphasis on health and hygiene. Three hours lecture and recitation per week. Prerequisite or corequisite Biology 102.

223. *Comparative Anatomy* 4 semester hours

A comparative study of the chordate animals. Study and dissection of type forms in the laboratory. Three hours lecture and recitation and two hours laboratory per week. On demand. Prerequisites Biology 101 and 102.

231. *Parasitology* 4 semester hours

A study of morphology, life cycle, modes of infection, and similar topics. Special emphasis is given to methods of identification of the parasites and their ova. Three lecture and two laboratory hours per week.

241. *Bacteriology* 4 semester hours

A study of bacteria, with emphasis on the pathogenic species. Laboratory work will be devoted to the study of the common species of bacteria and to the development of satisfactory bacteriological technique. Designed primarily for students who plan to

enter medicine, nursing, dentistry, public health, or medical technology. Three hours lecture and two hours laboratory per week. On demand.

252. *Clinical Pathology* 5 semester hours

Designed for medical technologists, medical secretaries, and nursing students. Theory and practice of clinical laboratory procedures, including hematology, urinalysis, and similar topics. Three lecture hours, four laboratory hours per week.

261. *Invertebrate Zoology* 4 semester hours

A study of the invertebrate animals from the standpoint of their taxonomy, morphology, physiology, and relationships. Three hours lecture and recitation and two hours laboratory per week. On demand. Prerequisite Biology 101 and 102.

CHEMISTRY

171-172 *General Inorganic Chemistry* 4 semester hours

This course emphasizes the fundamental principles, theories, laws, and basic facts of chemistry. Preparation and properties of the more common elements and their compounds are studied. Relations of the periodic table and atomic structures are studied. Special consideration given to writing and balancing equations.

173. *Medical Secretary Chemistry* 4 semester hours

A course designed to give a working knowledge of chemistry laboratory procedures to medical secretarial students. Theoretical chemistry is kept at a minimum. Includes the common laboratory tests used in clinical work. Prerequisites: high school chemistry or general college chemistry.

271-272. *Organic Chemistry* 5 semester hours

This course is a survey study of the organic compounds. Both aliphatic and aromatic compounds are considered. Special attention is given to methods of preparation and to reactions of typical organic compounds. Two hours lecture and recitation and six hours laboratory per week. Prerequisites: Chemistry 171-172.

PHYSICS

181-182. *General Physics* 4 semester hours

This course treats historically and experimentally the great principles of physics. Such topics as mechanics, heat, magnetism, electricity, sound, and light are studied. Special emphasis is placed on problem-solving. Three hours lecture and recitation and two hours laboratory per week. Prerequisites or corequisites, College Algebra and Trigonometry.

281. *Modern Developments in Physics* 4 semester hours

This course is a study of topics not usually covered in the classical physics course. Such topics as X-rays, television, radio and elementary atomic physics are considered. This course is limited primarily to developments of the present century. Three hours lecture and recitation and two hours laboratory per week.

SOCIAL SCIENCE

HISTORY

101-102 *World History* 3 semester hours

A survey of history from the ancient times to the present. Emphasis is placed on major civilization of the Near East, Greece, Rome, the fall of the Roman Empire, the Reformation, and the Renaissance.

103-104. *United States History* 3 semester hours

United States History from the first settlement to the present day. Parallel reading, oral and written reports required.

SOCIOLOGY

105. *Sociology* 3 semester hours

An introduction to the principles of sociology, the structure and function of society. A basic course prepared to meet the needs of beginners in this field.

GOVERNMENT

108. *Government* 3 semester hours

The National Government of the United States. A course in the problems of American citizenship with a study of the actual working of the American Government. Parallel reading, oral and written reports required.

PSYCHOLOGY and PHILOSOPHY

201-202. *Psychology* 3 semester hours

This course is a survey of the problems, principles and methods of psychology. The study leads to advanced work in psychology. It serves as an introduction to liberal education.

201. *Ancient Philosophy* 3 semester hours

The development of philosophic thought from the dawn of Greek philosophy to the Christian era.

202. *Modern Philosophy* 3 semester hours

The development of philosophic thought from the Renaissance to the present. Chief emphasis on the seventeenth and eighteenth centuries.

GRADUATES 1955-56

ONE YEAR GENERAL BUSINESS

Mary Alice Bell
Shelia Gibson
Herbert Carlton Guthrie
Richard Watts Harris, Jr.

ONE YEAR SECRETARIAL

Nancy Rawls Barden
Ada Marie Barnes
Grace Mavis Boyd
Patsy Gayle Futrell
Edith Hines Liverman
Mary Vaughan Nixon
Diane K. Phillips
Shelby Jean Pittman

LINOTYPE OPERATORS

Roy William Evans
Milton Earl Futrell
